

STEP 1

Make sure Resolution is either MED or LOW. DO NOT go for HIGH RES. Make sure you have set the path where the file is to be saved OR said 'Use File Dialog'

STEP 2

Click REC CONFIG beside VIDEO

STEP 3

Select Xvid and click CONFIG

Preferably select 18-20 here for optimal and compact file. Else file size will be too high.

STEP 4

Choose whatever recording time you want.

And click OK

STEP 5

Click on VIDEO
